

## Epsilon Welcomes Katie Raymond to the Air Quality Group

April 7, 2015

Epsilon is excited to welcome **Katie Raymond** as a Senior Engineer to the [Air Quality group](#). With more than 20 years of environmental consulting experience focused on sustainability and LEED Certification, Katie has become an industry leader in the planning, design, construction, and operation of green buildings. At Epsilon, she will strengthen our ability to provide greenhouse gas, energy efficiency, and sustainability analyses in support of National Environmental Policy Act and Massachusetts Environmental Policy Act filings for commercial real estate, energy, and other projects.

She previously served as a Sustainability Project Manager at DTZ – a real estate company – where she served as a firm-wide leader of the LEED consulting practice. She has led the successful LEED Certification of numerous new construction, existing buildings, and interiors projects.

Katie earned her B.S. in Civil Engineering from Tufts University. She is a Registered Professional Engineer and is a Leadership in Energy and Environmental Design (LEED) Accredited Professional with a specialty in Operations and Maintenance.

For more information on Katie's work, please contact her at [kraymond@epsilonassociates.com](mailto:kraymond@epsilonassociates.com) / (978) 461-6234.
